

Provision of comprehensive information on  
Fukushima Daiichi Nuclear Power Station related issues

Providing information on Fukushima Daiichi Nuclear Power Station (NPS) related issues to the international society in a transparent and accurate manner is one of the Government of Japan's duties. In order to further carry out such duty, the Government of Japan has uploaded useful information regarding Fukushima Daiichi NPS related issues on its webpage.

This webpage includes following information:

- A comprehensive report provided through the IAEA
- Comparisons of the air dose rate data between cities in Japan and the world's major cities
- Information on the Final Report on the IAEA Review Mission on Mid-and-Long-Term Roadmap towards the Decommissioning of TEPCO's Fukushima Daiichi Nuclear Power Station Units 1–4 (issued on Feb 13, 2014)

The URL of the aforementioned webpage is as follows:
